SPENT SOLVENT WASTE

LAND DISPOSAL BAN NOTIFICATION FORM

Generator Name: Chemical Processors Inc. CWMI Profile Number: _____

EPA ID Number: WAD020257945 Manifest Number: 08933

This form is submitted to Chemical Processors Inc. Pier 91 in accordance with regulations published by EPA at 40 CFR Part 268, which govern the land disposal of restricted hazardous wastes. The hazardous waste identified above has been listed as a restricted waste by EPA under the Part 268 regulations. In accordance with the waste analysis and recordkeeping requirements set forth at 40 CFR 268.7, I have marked the appropriate box below to indicate how my waste must be managed to conform to the regulations. (See instructions on reverse side for marking appropriate box).

Restricted Waste Requires Treatment

- ☐ 1. The waste identified above must be treated to the appropriate standard identified in 40 CFR 268 Subpart D.

Restricted Waste Treated to Performance Standard

- ☒ 2. The waste identified above has been treated, the treatment residues have been tested in accordance with the facility WAP, and the residues have been found to meet the performance standards specified in 40 CFR Subpart D. "I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and that, based upon my inquiry of those individuals immediately responsible for obtaining this information, I believe that the treatment process has been operated and maintained properly so as to achieve the performance levels specified in 40 CFR Part 268 Subpart D without dilution of the prohibited waste. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment."

Restricted Waste Subject to Variance

- ☒ 3. The waste identified above is subject to a case-by-case extension under 40 CFR 268.5, a petition under 40 CFR 268.6, a nationwide variance under Subpart C, or another exemption from the November 8, 1986 land disposal prohibition date.

I hereby certify that all material submitted in this and associated documents is complete and accurate to the best of my knowledge and information:

Instructions for Completing Front Side of Form

Mark Box 1 if you are the initial generator of a spent solvent waste specified in 40 CFR 261.31 as EPA Hazardous Waste Nos. F001, F002, F003, F004, and F005, and your waste is ineligible for a nationwide variance or other exemption from the November 8, 1986 prohibition date. (See below).

If Box 1 is marked, your solvent waste is restricted and must be treated to the standards set forth in the box below prior to land disposal. For each solvent waste present in your waste shipment, check the appropriate box in front of the applicable treatment standard(s). If based upon best knowledge and information, your waste shipment may contain some or all of the constituents listed below, please mark the appropriate boxes or the box labeled "All of the above" at the bottom.

Mark Box 2 if you are the owner/operator of a treatment facility that has treated restricted solvent waste to the treatment standards set out in the above table.

Mark Box 3 and the appropriate box below to indicate that your waste is not restricted from land disposal until November 8, 1988:

- ☐ 1. You are a small quantity generator of 100-1000 kilograms of hazardous waste per month; or
- ☐ 2. The solvent waste is generated from a response action taken under sections 104 or 106 of CERCLA or corrective action taken under sections 3004(u) or 3008(h) of RCRA; or
- ☒ 3. You are the initial generator of a solvent waste that is a solvent water mixture, solvent-containing sludge or solid, or solvent-contaminated soil (non-CERCLA or RCRA corrective action) containing less than 1 percent total F001-F005 solvent constituents listed in the above table.
- ☐ 4. The solvent waste is subject to a case-by-case extension or no-migration petition.
- ☐ 5. Your waste is a residue generated from the treatment of only spent solvent wastes identified in one of the above four categories. (e.g., you are a solvent recycler that has treated only small quantity generator waste, or you are a wastewater treatment plant that has treated only wastewater containing less than 1% total F001-F005 solvent constituents.)
